## The Library has a new website!

Visit us at <http://www.library.african.cam.ac.uk/>

The Library's new website went live last month. It features lots of useful information about finding material, and links to resources for research in African Studies. Please use the site and give us your feedback about any other functions you think might be useful. There's a feedback form on the site, as well as forms for book recommendations, and for basement fetching requests.

## Focus on Mali and Timbuktu: Library display

Between 23 October and 3 November, our holdings of maps, books, and reports on the West African country of Mali have been on display in the Library, giving visitors from outside the University a taste of what we do here. Alongside our own material, we've shown textiles and paintings inspired by the artwork and culture of Mali, generously loaned by Tim Oelman. A larger exhibition of Tim's work will be exhibited at the Alison Richard Building next September.
